

**Attachment 1 – Comparison of the Victorian Government’s ‘Recycling Victoria, a new economy’ targets to the City of Port Phillip’s ‘Don’t Waste It! Waste Management Strategy’ targets.**

<b>Recycling Victoria target</b>	<b>2022 Don’t Waste It! targets</b>	<b>2028 Don’t Waste It! targets</b>
Divert 80 per cent of waste from landfill by 2030, and an interim target of 72 per cent by 2025.	Landfill diversions of: <ul style="list-style-type: none"> <li>• 43% for houses</li> <li>• 29% for apartments</li> <li>• 58% for Council buildings</li> <li>• 85% for public bins.</li> </ul>	Landfill diversions of 85% for houses, apartments, council buildings and public bins. 100% of household / apartment and Council building waste treated to maximise its value prior to landfill.
Cut total waste generation by 15 per cent per capita by 2030.	20% reduction in waste per house, apartment and per Council employee.	
Halve the volume of organic material going to landfill between 2020 and 2030, with an interim target of 20 per cent reduction by 2025.		50% diversion of food waste from landfill within house/apartment, Council and (participating) commercial buildings.
Ensure every Victorian household has access to food and garden organic waste recycling services or local composting by 2030.		As above
Reduce harm from waste and pollution.		
	50% reduction in contamination levels in apartments, houses and Council building recycling bins.	
	50% reduction in recyclable items in apartments, houses and Council building waste bins.	
	Maintain community satisfaction levels of 90% for waste services.	Maintain community satisfaction levels of 90 for waste services, while managing growth.
