

Public Question Time

Question from Adrian Jackson

Does council inspect road and footpath repairs to ensure they are correctly done? Mr Jackson provided photos of an example of repairs required on Richardson Street, Middle Park.

Chris Carroll, General Manager Customer, Operations and Infrastructure advised that Council does carry out inspections and we are reviewing our capacity and organizational structure to conduct more inspections across all our assets. I will also take on note the three examples that Mr. Jackson provided prior to the meeting and specifically look into those as well.

Response

The repairs reported by Mr Jackson on Richardson have been satisfactorily reinstated. Service authorities and builders are responsible for their own reinstatements and council is currently updating our permitting processes which will allow better monitoring to ensure reinstatements by others are completed satisfactorily.
