Read before starting

Below are some things people often miss when submitting their application. Making sure you include this information will prevent delays and save you time.

Application/Design Considerations

Under Section 188A of the Building Act 1993 Council **must refuse** to give consent to a design which does not comply with Ministerial Decision Guidelines which apply to a particular regulation. Applicants will need to be fully aware of these guidelines and demonstrate that the proposal satisfies all the relevant guidelines with respect to the particular regulation to avoid an automatic refusal.

Advertising

Under Section 188A of the Building Act 1993, if in the opinion of the reporting authority (Council) the application may result in a nearby allotment suffering detriment, it must give the owner of the allotment an opportunity to make a submission in respect of the possible detriment. Comments of adjoining owners tendered by the referring building surveyor or applicant will not override the possibility that Council may be obliged to advertise. The Council will seek the comments of the affected adjoining

property owners upon being satisfied that all information/documentation has been provided. The advertising period is a minimum of 14 days.
